

WNQM Press Release

WNQM 1300-AM 50,000 Watts

On October 7, 1996, the Federal Communications Commission in Washington, DC granted a Construction permit to WNQM, 1300AM, Nashville, Tennessee for 50,000 Watts.

WNQM uses 1300 Khz in Nashville, TN. 1300 has been on the air continuously since 1947. WNQM airs over 100 different churches, teachers and ministries based both in middle Tennessee and other parts of the United States. WNQM also broadcasts 24 hours a day.

Due to the major engineering requirements to enact this power change, no completion date can be announced. It is expected that construction will begin within the next several months and completion being determined by local weather conditions and equipment availability.

WNQM is the sister station to WWCR (World Wide Christian Radio) which serves Europe, Middle East and Africa on Shortwave from Nashville, Tennessee.

For release December 15, 1996
